Kathmandu

National Boundaries

This map visualizes the drinking water availability for Nepal. Clean water is essential for human flourishing. The sources of drinking water are shown by Development Region on the pie charts. The amount of drinking water available for each person for a given day is visualized by Administrative Zone. The data for this map is courtesy of Digital Himalaya and the Central Bureau of Statistics for Nepal.

This map has been produced by Calvin College, Department of Geology, Geography, and Environmental Studies.
